

We are looking for:

Automation Engineer (m/f/d)

Full-time – asap – Bochum

Are you looking for an exciting opportunity to contribute to cutting-edge technology? At LIDROTEC, a dynamically growing company on its way to becoming an established player in the industry, you can do just that!

LIDROTEC has developed an innovative laser process for cutting microchips, which is used in the production of high-performance chips for smartphones, cars, and medical technology. At our Bochum location, our experienced team is constantly working on improving industrial systems and advancing the technology. Are you ready to be part of this future?

These are your tasks:

- You continuously develop and optimize the processes on our systems.
- You analyze and resolve issues and alerts in the hardware and software environment.
- You manage process data, conduct error analyses, and maintain documentation.
- You independently execute projects directly related to our systems.

What we require:

- Solid experience in handling laser machines in industrial applications.
- PLC programming in Beckhoff (optional Siemens).
- Industry-level knowledge in C# and Python.
- Experience in independently managed projects.
- Fluent in spoken and written English.
- Desirable: Experience in the semiconductor field, as well as in predictive maintenance and AI.

What we offer:

- ✓ A company culture that fosters innovation, openness, and curiosity – your ideas are welcome.
- ✓ A dynamic, multidisciplinary team that develops innovative solutions together.
- ✓ Continuous learning opportunities and the chance to establish yourself in a growing industry.

What we expect:

- ✓ You want to make a real impact with your work and help build something significant.
- ✓ You enjoy working in teams and solving complex problems with interdisciplinary teams.
- ✓ You have a passion for innovation and are open to new approaches to break through existing boundaries.

Do you want to be part of our journey?

Then don't hesitate to send us your application documents:
