

## We are looking for: Process Engineer (m/f/d)

### Full-time – asap – Bochum

Are you looking for an exciting opportunity to contribute to cutting-edge technology? At LIDROTEC, a dynamically growing company on its way to becoming an established player in the industry, you can do just that!

LIDROTEC has developed an innovative laser process for cutting microchips, which is used in the production of high-performance chips for smartphones, cars, and medical technology. At our Bochum location, our experienced team is constantly working on improving industrial systems and advancing the technology. Are you ready to be part of this future?

#### These are your tasks:

- You develop and optimize processes directly at the equipment to increase efficiency and quality.
- You are responsible for executing customer orders, acting as an internal and external point of contact.
- You conduct sample analyses to ensure and document the quality and properties of the manufactured products.
- You are involved in product development (hands-on as well), continuously providing feedback and testing new products and processes.

#### What we require:

- You have experience in laser material processing in an industrial environment and are familiar with the operation and maintenance of systems.
- You bring experience in contract manufacturing, including the planning, execution, and documentation of manufacturing processes.
- Very good English skills, both spoken and written.
- Desirable: Knowledge in handling laser dicers or saw dicers to meet specific requirements in material processing, or experience in the semiconductor industry.

#### What we offer:

- ✓ A company culture that fosters innovation, openness, and curiosity – your ideas are welcome.
- ✓ A dynamic, multidisciplinary team that develops innovative solutions together.
- ✓ Continuous learning opportunities and the chance to establish yourself in a growing industry.

#### What we expect:

- ✓ You want to make a real impact with your work and help build something significant.
- ✓ You enjoy working in teams and solving complex problems with interdisciplinary teams.
- ✓ You have a passion for innovation and are open to new approaches to break through existing boundaries.

Do you want to be part of our journey?

Then don't hesitate to send us your application documents:
